Rialto Fire Department

City of Rialto California

FIRE DEPARTMENT

~~Rogers K. Rood~~
Acting Fire Chief
Henry S. Lewis

November 3, 1987

Mr. Ralph Apple
Red Devil Fireworks Company
3196 North Locust
Rialto, California 92376

Dear Mr. Apple:

You are invited to attend and participate at a meeting hosted by the City of Rialto on Thursday, November 12, 1987, at 2:00 P.M. The meeting will be held at the Rialto Fire Department (in the training/conference room) 131 South Willow Avenue, Rialto, California.

The purpose of this meeting is to allow discussion with elected City officials and representatives of other City departments regarding the recent explosions which occurred at Trojan and Celebrity Fireworks Companies.

Please contact Senior Fire Inspector Sam Gutierrez at (714) 820-2508 with the name and title of your respective representative.

Sincerely,

Henry S. Lewis
Acting Fire Chief

/c

AP 01057

JOINT MEETING HELD ON NOVEMBER 12, 1987
BETWEEN CITY OF RIALTO OFFICIALS AND
FIREWORKS COMPANY REPRESENTATIVES

ATTENDEES: Joe Aklufi, Attorney representing Schultz Trust
Ralph Apel, Red Devil
Greg Beach, San Bernardino County DEHS
Gene Baguley, Aerojet Ordinance
Homer Bludau, City of Rialto City Administrator
Jerry Brower, Broco, Inc.
Stuart Carlton, Trojan Fireworks
Dean Collister, Pyro-Spectaculars
Leon Cuthbert, Aerojet Ordinance
Ray Farmer, City of Rialto Police Chief
Henry Lewis, City of Rialto Acting Fire Chief
Tom McVeitty, City of Rialto Fire Division Chief
Bill Page, Celebrity Fireworks
Tom Peters, Trojan Fireworks
Jim Smith, San Bernardino DEHS
Earl Snowball, San Bernardino County Sheriff's
Explosives Detail
Robert Souza, Pyro-Spectaculars
Rod Taylor, City of Rialto Planning
Chuck Wideen, San Bernardino County Sheriff's
Explosives Detail

Division Chief Tom McVeitty opened the meeting at 2:05 P.M., and everyone introduced themselves.

Mr. Bludau explained that the two recent explosions generated a lot of interest from the citizens who have demanded we close the fireworks plants down. Due to this outcry, the City Council has directed the staff to look into this and bring recommendations back to the City Council. Citizens who left their name and addresses will be notified when a meeting has been scheduled to discuss this further. Prior to that meeting we called this meeting so you can be prepared as to any recommendations. Last week we met with the regulatory agencies involved and had very good input. This week we are asking for your recommendations and help. Specifically, we would like an inventory of how much is stored and where, transportation of explosives in and out of that area and any suggestions you may have.

Each representative talked about their operation (storage, manufacture, etc.)

NOVEMBER 12, 1987
PAGE 3

We have about 30 people and do not do background checks. The factory workers are interviewed carefully but no background checks. We have a psychiatrist whose services we use and asked him if there is a way to tell if an employee was suicidal and he said it would be difficult and take two to three hours to determine.

We have a fence and guard dogs, burgular alarm and lights at night. The display bunker has the building fronting it alarmed. We hire security guards during the busy time of year. The bunkers are identified by letters/numbers. We own the five acres and do not sub-lease. We lease the bunkers from Mr. Hayward (one and one-half) and Schultz Trust (one and one-half).

We have a set of keys locked in the office. No one has keys to the bunkers. If an employee took a set of keys we would know by the end of the day because all keys must be accounted for.

We store a maximum of 20,000 to 30,000 pounds of chemicals.

Trojan has been there since 1971.

Mr. Aklufi: The Schultz Trust estate hold 95 acres--four to five major tenants. Primarily for leasing magazines. Terms of leases vary (two to three years) and renewed periodically with options. No long-term leases but Aerojet has a five-year lease with options. We have an insurance clause on all that they are to abide by all State and Federal laws.

Aerojet Ordinance:

We have six bunkers for storage only. Five bunkers are used for propellant storage and one is used for high explosives storage. No raw material storage; assembly of all Ordinance material is in Chino. We have 23,000 pounds in one bunker of high explosives; everything else is propellant.

The explosives material is very expensive and we are attempting to sell it or will take it back to our Chino facility. May bring in buildings approved by DOD or will get rid of it. Once that is out we are primarily a storage facility. The people who go down there are licensed and are a select group. We have absolute control of entrance. Fencing and sensing devices. We do not handle raw materials. We increase our storage capability at Chino and no delivery is made to the Rialto facility.

We tried to make a deal with the Navy to get rid of the explosives but they backed out because of the liability. Only other way to get rid of this is to destroy with a permit from the DOD and AQMD.

AP 01060

Celebrity: We had five acres (fenced) and nine people employed. Primarily Class "B" aerial fireworks. Stored chemicals equaled 10,000 to 12,000 pounds and up to 7,000 pounds of black powder; the rest was finished shell--10,000 to 30,000 pounds of finished product. We had two sets of keys; one for me and one for the foreman. Only manufactured Class "B" other than the black powder we had on hand. We have one trailer left that has some salvage in it. We are out of business except what we are storing in a trailer. The trailer has been there one to two years; hot waste two to three years. It has been in the trailer as hot waste material for the last year. We had been burning it on-site until we found out we were not supposed to. We never had a conditional permit except for Trojan.

Celebrity has been there for three years; Broco over twenty-five years.

City of Rialto Fire Department: We have been working with the facilities regarding the 90 days allowable for storage of waste.

City of Rialto Planning Department: The area is zoned M-2 which allows for manufacture and storage of explosives (subject to a public hearing). As long as the bunkers are existent and no new facilities are built (which require a building permit) just a business license is required.

Pyro-Spectaculars: We have public display Class "B" and are importers/exporters/wholesalers; generally wholesalers and licensed with the State.

We have 25 acres--fire alarm system and office has alarm system. We keep an accurate inventory on our computer. A printout can tell the quantity of Class "B" or "C" materials at any given time. We submitted a map to the Fire Department and identified each bunker.

The security on the storage bunker is double lock. We had one break-in fifteen years ago but they didn't touch anything.

We have fifteen workers and five to six people have access to the keys. We do not manufacture--we are wholesalers--public display operators. We have above-ground storage facilities and two bunkers.

We transport in and out daily. Responsible agency is CHP and they are quite stringent on vehicles and have approved routes. Approved routes are freeways to Highland to Locust or freeway to Sierra to Highland (Alder is not approved now). There are no approved vehicle stops for trucks transporting explosives in Rialto. Tri-State stop is approved for Tri-State trucks only.

Celebrity Fireworks was concerned as to when the building restrictions will be lifted and were told that a public hearing on the moratorium is scheduled for next Tuesday and it can be extended.

Mr. Brower expressed concern about any delay and asked for the City's help. He also suggested that everyone could put up fences, incorporate a roving patrol and keep everyone out who does not belong.

The City felt that this would be a big step.

There was concern from the fireworks representatives about building houses close to the dump and was told that the dump is in Fontana and Rialto does not have any houses closer than one-half mile.

Division Chief McVeitty said according to ATF, the American Table of Distance allows 2800' to build homes to the nearest bunker, but ATF feels we should double that and reiterated that if someone builds in that area then it is the individual company's responsibility to make sure that the area is safe for the people.

The fireworks representatives feel like it is "we against they" and want the City's help and said they will help by working together. Where can they start?

Division Chief McVeitty said we are not in a position to make recommendations today but does feel that the first two issues will be:

1. Limit new construction to whatever existed at a certain date.
2. Security.

Mr. Jerry Brower did not feel that limiting construction would be acceptable.

Mr. Apel felt that this industry is being made the scapegoat--perhaps the developer can be made to put up block walls, etc.

Mr. Brower said Bill Page (Celebrity) needs help now.

It was suggested that everyone come to the meeting on Tuesday night (November 17, 1987 at 6:00 P.M.) and let the City Council know that some consideration needs to be given to the people now and perhaps the moratorium should be on future expansion.

Pyro-Spectacular asked if Sam could give them some clarification on burning permits.

Mr. Aklufi asked what our next step would be.

Division Chief McVeitty said we would meet again, but it will probably be a month or two.

Mr. George Zambelli
Zambelli Manufacturing Company, Inc.
P.O. Box 801 and 1463
New Castle, Pennsylvania 16103

Dear Mr. Zambelli:

RE: Fire Department Permit 0100

Pursuant to your discussions with Fire Marshal T. McVeitty and Mr. B. Souza of Pyrospectulars, Inc., regarding the seasonal storage of pyrotechnic explosives in Bunker A-1, please be advised that based on information you provided, your Fire Department permit to operate will be changed accordingly to reflect your new operating procedures.

The approved use of Bunker A-1 for the storage of pyrotechnic materials will be from June 1 through July 31, of each calendar year. Explosives of any type or amount, as defined in City Ordinance, Chapter 1548, Section 15.48.030, may not be stored or otherwise kept inside Bunker A-1 before or beyond the approved "permitted" dates. Any violations of this ordinance will be cause for revocation of your Fire Department permit to operate.

Bunker A-1, as well as all explosives bunkers in the immediate vicinity, are subject to biannual inspections by the Rialto Fire Department. Please make available to this Division, a means of making access to the Bunker or provide a representative to assist during the inspection periods.

If you should have any questions regarding this matter, please do not hesitate to contact me at (714) 820-2508.

Sincerely,

Sam Gutierrez
Senior Fire Inspector

/c

City of Rialto Fire Department

Charles E. Skaggs, Fire Chief

June 28, 1988

Dear Owner/Operator:

On June 8, 1988, The Rialto City Council, passed Ordinance Number 1034, (copy attached), which regulates the manufacture, transportation and storage of fireworks, explosives and blasting agents in the City of Rialto. This ordinance will become law thirty days after Council action, July 8, 1988. The Rialto Fire Department will begin enforcement of the ordinance after this date.

Several areas of the ordinance may require extending this deadline so you, as the owners and operators of these businesses, can develop plans for the approval of the Fire, Police and other City Departments. The Fire Department will be making every effort to assist you in complying with this new ordinance. Additionally, you are being notified that the maximum storage limits in the bunkers are being adjusted as per the distance table contained in the Ordinance and the proximity of inhabited buildings.

Attached is a list that includes the bunker number, leasee or owner, distance to the inhabited buildings, and maximum quantity of explosives that will be permitted.

If you have any questions, please contact me or Senior Fire Inspector, Sam Gutierrez, between 8 a.m. and 5 p.m., Monday through Friday at (714)820-2501 or (714)820-2508.

Sincerely,

Thomas J. McVeitty
Fire Marshal

ORDINANCE NO. 1034

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF RIALTO, STATE OF CALIFORNIA, AMENDING TITLE 15 OF THE RIALTO MUNICIPAL CODE BY THE ADDITION OF CHAPTER 15.48 RELATING TO THE MANUFACTURE, TRANSPORTATION AND STORAGE OF FIREWORKS, EXPLOSIVES AND BLASTING AGENTS.

The City Council of the City of Rialto, State of California, hereby ordains as follows:

Chapter 15.48 is added to the Rialto Municipal Code as follows:

Chapter 15.48

MANUFACTURE, TRANSPORTATION AND STORAGE OF FIREWORKS
EXPLOSIVES AND BLASTING AGENTS

Sections:

15.48.010 Findings and Adoption of the NFPA 490, NFPA 495, NFPA 498, NFPA 1124 and CFR 27 (Parts 1-199).

15.48.020 Establishment and duties of the division of fire prevention.

15.48.030 Definitions

15.48.040 Application

15.48.050 Permits

15.48.060 Inspection and Approval

15.48.070 Modifications

15.48.080 Appeals

15.48.090 Amendments to NFPA 1124, Code for the Manufacture, Transportation and Storage of Fireworks.

15.48.100 Validity clause.

15.48.110 Violation - Penalty.

15.48.010 Findings and Adoption of the NFPA 490, NFPA 495, NFPA 498, NFPA 1124 and CFR 27 (Parts 1-199).

A. Findings. The City Council finds as follows:

1. That the National Fire Protection Association, Inc. is a private organization which has been in existence for a period of at least 16 years;

1 B. Adoption of NFPA 490, NFPA 495, NFPA 498, NFPA 1124 and
2 CFR 27 (Parts 1-199).

3 The City Council hereby adopts the NFPA 490, Code for the Storage of
4 Ammonium Nitrate, the NFPA 495, Code for Manufacture, Transportation,
5 Storage and Use of Explosive Materials, the NFPA 498, Standard for Explosives
6 Motor Vehicle Terminals, the NFPA 1124, Code for the Manufacture,
7 Transportation and Storage of Fireworks 1984 Edition, and the CFR 27 (Parts
8 1-199) and Appendices as compiled and adopted by the National Fire Protection
9 Association, Inc.. The provisions of the NFPA 490, NFPA 495, NFPA 498, NFPA
10 1124 and CFR 27 (Parts 1-199) shall apply to all the incorporated areas of the
11 City.

12
13 15.48.020 Establishment and duties of the division of fire
14 prevention

15 A. The NFPA 490, Code for the Storage of Ammonium Nitrate, the NFPA
16 495, Code for Manufacture, Transportation, Storage and Use of Explosive
17 Materials, the NFPA 498, Standard for Explosives Motor Vehicle Terminals, the
18 NFPA 1124, Code for the Manufacture, Transportation and Storage of Fireworks
19 1984 Edition, and the CFR 27 (Parts 1-199) shall be enforced by the division of
20 fire prevention in the fire department of the city, which is established and
21 which shall be operated under the supervision of the chief of the fire
22 department.

23
24 15.48.030 Definitions.

25 This ordinance shall be known as "an ordinance regulating the
26 manufacture, storage, and transportation of fireworks, explosives and blasting
27 agents in the City of Rialto" and may be referred to as "The Fireworks,
28 Explosives and Blasting Agents Ordinance."

1 G. POSSESSOR OF LAND. Any person or persons entitled to lawfully
2 possess and use real property in accordance with the zoning and land use
3 restrictions of the City of Rialto.
4

5 15.48.040 Application

6 This ordinance shall apply to all persons, firms, corporations,
7 copartnerships, governmental agencies except Federal agencies, and
8 associations manufacturing, transporting or storing fireworks, explosives or
9 blasting agents and to the owner or lessee of any building, premises, or
10 equipment in or on which fireworks, explosives or blasting agents are
11 manufactured, transported or stored.
12

13 15.48.050 Permits.

14 1. A permit issued pursuant to this ordinance shall be obtained
15 annually from the chief for any of the operations listed below in order to
16 achieve greater fire and area safety.

17 A. To manufacture, possess or store fireworks, explosives, or
18 blasting agents.

19 B. To transport within the jurisdiction fireworks, explosives or
20 blasting agents.

21 C. To maintain any facility for loading, unloading, reloading, or
22 transshipment of fireworks, explosives, or blasting agents in connection
23 therewith.
24

25 2. All permits issued in accordance with the provisions of this
26 ordinance shall, upon reissue, be subject to any amendments hereafter made to
27 this ordinance.
28

1 use will constitute a distinct hazard to life or adjoining property. The
2 particulars of such variance shall be entered upon the permit issued. Copies
3 thereof shall be retained by the chief and forwarded to the city council within
4 ten (10) days of the issuing of said permit.
5

6 **15.48.080 Appeals**

7 A possessor of land and/or permittee aggrieved by any denial or order
8 issued pursuant to this ordinance may file with the City Clerk an appeal to the
9 City Council within 10 days from the service of such denial or order. The City
10 Clerk shall thereafter place the appeal on the next regularly scheduled City
11 Council agenda.

12 The City Council shall at such hearing affirm, modify, revoke or vacate
13 such denial or order. The decision of the City Council in regards to said order
14 or denial shall be a final decision and shall be complied with immediately.
15 Nothing herein contained shall be deemed to deny the right of any person, firm,
16 corporation, co-partnership, or voluntary association to appeal from an order or
17 decision of the City Council to a court of competent jurisdiction.
18

19 **15.48.090 Amendments to NFPA 1124, Code for the**
20 **Manufacture, Transportation and Storage of**
21 **Fireworks.**

22 The amendments to NFPA 1124 set forth below shall apply to the
23 manufacture, transportation, and storage of fireworks, explosives and blasting
24 agents.

25 1. Section 2-2.1 of the NFPA 1124, Code for the Manufacture,
26 Transportation and Storage of Fireworks is amended to read as follows:
27

28 2-2.1 Any person engaged in the business of importing,

1 fence. All buildings, bunkers, magazines or storage areas inside the fence shall
2 be clearly marked with an alpha numeric code. For enforcement and enactment
3 see Paragraph 7 below.
4

5 4. Section 2-5.4 of the NFPA 1124, Code for the Manufacture,
6 Transportation and Storage of Fireworks is amended to read as follows:
7

8 2-5.4 There shall be a security guard on duty in the storage
9 bunker area during non-business hours who shall have the duty of allowing only
10 authorized employees or representatives of federal, state, or local agencies
11 having jurisdiction over the plant into the area. All other individuals seeking
12 entrance into the plant site shall obtain special permission from the person in
13 charge of the specific area.
14

15 5. Section 2-5 of the NFPA 1124, Code for the Manufacture,
16 Transportation and Storage of Fireworks is amended by adding the following:
17

18 2-5.5 License or permit holder shall maintain an updated list
19 of all employees in addition to a current list of all supervisors and their
20 telephone numbers. Such records shall be kept for a period of five (5) years and
21 shall be made available to the authorities having jurisdiction upon request.
22

23 6. Section 2-5 of the NFPA 1124, Code for the Manufacture,
24 Transportation and Storage of Fireworks is amended by adding the following:
25

26 2-5.6 License or permit holders shall provide all employees
27 who have non-business hour access to secure areas with an identification
28 badge which shall be worn during non-business hours while on the plant site.

1 PASSED, APPROVED AND ADOPTED this 8th day of June,
2 1988.
